---

CAREER OBJECTIVE

Motivated and detail-oriented Frontend Web Developer and Business Information Systems (BIS) student with practical experience in building responsive, user-friendly web applications. Skilled in HTML5, CSS3, JavaScript (ES6+), and Bootstrap. Proven ability to translate designs into functional front-end interfaces through freelance projects and intensive training programs including NTI and DEPI. Passionate about writing clean code and creating modern web experiences.

EDUCATION

Bachelor of Business Information Systems (BIS) | Expected Graduation 2027

Faculty of Commerce, Alexandria University| Start: 2023, End:2027

GPA: 3.6 / 4

TRAINING EXPERIENCE

React Frontend Web Developer (Trainee) | Digital Egypt Pioneers Initiative (DEPI)

July 2026 – Present

- Enrolled in an intensive track focusing on modern frontend techniques and React.js development.
- Collaborating with team members to build interactive web modules and apply industry-standard workflow practices.

Web Designer (Trainee) | National Telecommunication Institute (NTI)

January 2026 – March 2026

- Trained on core web design principles, user interface layouts, and frontend markup languages.
- Successfully completed hands-on coding assignments and projects applying HTML, CSS, and responsive layout structures.

WORK EXPERIENCE

Freelance Frontend Developer | Work Experience

March 2026 – Present

- Developed and deployed custom, responsive web pages for clients using modern HTML5, CSS3, JavaScript, and Bootstrap.
- Collaborated with clients to translate project requirements into functional, user-friendly frontend solutions.
- Ensured cross-browser compatibility and optimized web interfaces for smooth performance across mobile and desktop devices.

PROJECTS

Burger Hub – Restaurant Website | GitHub Repository
